HEALTH EFFECTS FROM EXPOSURE:

It should be noted that the effects from exposure to this product will depend on several factors including: frequency and duration of use; quantity used; effectiveness of control measures; protective equipment used and method of application. Given that it is impractical to prepare a MSDS which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.

PERSONAL PROTECTIVE EQUIPMENT GUIDELINES:

The recommendation for protective equipment contained within this MSDS is provided as a guide only. Factors such as method of application, working environment, quantity used, product concentration and the availability of engineering controls should be considered before final selection of personal protective equipment is made.

IMPORTANT ADVICE: The information and recommendations given in this MSDS are based on the best present knowledge provided by Dechra Veterinary Products A/S to Dermcare-Vet Pty Ltd, at the time of writing. However, we decline any liability in connection with the above information except those non-excludable conditions implied by any Federal or State Legislation or law of a Territory.

Please read all labels carefully before using the product.
