

Previously known as Apex Benazepril

# Benakor<sup>®</sup> Oral Solution

**Benakor<sup>®</sup> Oral Solution 5mg/mL** is indicated for the treatment of heart failure in dogs, and Chronic Kidney Disease in dogs and cats. It is the **first** Benazepril solution globally, offering precise dosing delivered straight into the mouth, or on food.

Benazepril (the molecule) treats proteinuria, and reduces systematic and glomerular hypertension. It's proven to also help dogs with heart failure, and cats with CKD live a better life.

## Benakor<sup>®</sup> Oral Solution is:

- ✓ Available in two bottle sizes – 15mL and 50mL for longer term treatment
- ✓ A liquid formulation to allow for precise dosing, either on food or straight into the mouth
- ✓ Slightly sweetened (no sugar) to increase acceptability

**NEW**  
15mL size  
now  
available
